

**Table S2. Comparison of the expression patterns of zebrafish genes with their mouse counterparts revealed by mRNA *in situ* hybridization assays.**

Zebrafish Gene	mRNA <i>in situ</i> hybridization (whole-mount)	Mouse Gene	mRNA <i>in situ</i> hybridization (whole-mount)	mRNA <i>in situ</i> hybridization (section)
<i>ezh1</i>	Ubiquitous.	<i>Ezh1</i>	n.a.	Present in all tissues tested.
<i>ezh2</i>	Ubiquitous. 24-72 hpf: highly expressed in central nervous system, intermediate cell mass of mesoderm, and somites (see Figure S5 and text for details).	<i>Ezh2</i>	n.a.	E9.5: ubiquitous. E11.5: present in all tissues tested. E15.5: present in thymus primordium.
<i>mll</i>	Ubiquitous. 24 hpf: highly expressed in central nervous system and intermediate cell mass of mesoderm.	<i>Mll1</i>	E10.5: not specified.	E13.5: detected in neural and non-neural tissues; restricted in some cells (cerebral cortex, corpus striatum, spinal cord, etc.) of central nervous system.
<i>mll3a</i>	Ubiquitous. 24 hpf: highly expressed in intermediate cell mass of mesoderm.	<i>Mll3</i>	E3.5: inner cell mass. E10.5: not specified.	E13.5: not specified.
<i>mll4a</i> , <i>mll4b</i>	Ubiquitous.	<i>Wbp7</i>	E3.5: ubiquitous.	E16.0-adult: detected in all tissues tested.
<i>nsd1a</i> , <i>nsd1b</i>	Ubiquitous.	<i>Nsd1</i>	E10.5: not specified.	E13.5: not specified; detected in neural and non-neural tissues.
<i>prdm1a</i>	9 hpf: prechordal plate. 12 hpf: prechordal plate, somite, adaxial cells, intermediate mesoderm. 18 hpf: branchial arch, hatching gland, somite, tail epidermis. 24 hpf: branchial arch, fin buds, somite, cloaca, tail epidermis. 48-72 hpf: retina, pectoral fin, cloaca. 120 hpf: retina, pectoral fin.	<i>Prdm1</i>	E10.5: not specified.	E13.5: regionally restricted; absent in neural tissues.
<i>prdm15</i>	18 hpf: hatching gland, somite, muscle pioneer, neurons. 24 hpf: somite, muscle pioneer, neurons, and intermediate cell mass of mesoderm (see Figure 5 and 6 and text for details).	<i>Prdm15</i>	E10.5: not specified.	E13.5: regionally restricted; present in thalamus, hypothalamus, midbrain.
<i>prdm16</i>	12 hpf: hindbrain. 18-24 hpf: forebrain, hindbrain, posterior pronephric duct. 48-72 hpf: olfactory bulb, hindbrain, pectoral fin bars (see Figure 6 and text for details).	<i>Prdm16</i>	E10.5: regionally restricted; present in telencephalon and hindbrain.	E13.5: present in cerebral cortex, corpus striatum, thalamus, hypothalamus, hindbrain, ear, telencephalon and olfactory lobe.
<i>prdm3</i>	12 hpf: forebrain, intermediate mesoderm. 18-24 hpf: forebrain, midbrain, hindbrain, posterior pronephric duct. 48 hpf: forebrain, midbrain, hindbrain, pectoral fin bars. 72 hpf: hindbrain, pectoral fins (see Figure 6 and text for details).	<i>Evi1</i>	E10.5: not specified.	E13.5: present in hypothalamus, hindbrain, spinal cord, telencephalon and olfactory lobe.
<i>prdm4</i>	24-48 hpf: muscle and somites (see Figure 5 and text for details)	<i>Prdm4</i>	E10.5: not specified.	E13.5: absent in neural tissues.
<i>prdm5</i>	Ubiquitous but weak.	<i>Prdm5</i>	E10.5: not specified.	E13.5: absent in neural tissues.
<i>prdm6</i>	Ubiquitous.	<i>Prdm6</i>	n.a.	E11.5-E18.5: present in all tissues tested.
<i>prdm8a</i> , <i>prdm8b</i>	12-18 hpf: spinal chord. 24-48 hpf: spinal chord, hindbrain ( <i>prdm8a</i> ). 48 hpf: olfactory placode, tegmentum, cerebellum and retina ( <i>prdm8b</i> ) (see Figure 6 and text for details).	<i>Prdm8</i>	n.a.	E18.0-adult: present in retinal tissues.
<i>setd1ba</i> , <i>setd1bb</i>	Ubiquitous.	<i>Setd1b</i>	n.a.	E13.5: present in all tissues tested.
<i>setd6</i>	Ubiquitous.	<i>Setd6</i>	n.a.	E14.0-adult: present in all tissues tested.
<i>smyd1a</i> , <i>smyd1b</i>	12 hpf: somites and muscle. 18-48 hpf: somites, muscle and heart. 72-120 hpf: somites and muscle ( <i>smyd1b</i> ). 18-120 hpf: somites and muscle ( <i>smyd1a</i> ) (see Figure 5 and text for details).	<i>Smyd1</i>	n.a.	E9.0: present in heart.
<i>suv39h1a</i> , <i>suv39h1b</i>	Ubiquitous.	<i>Suv39h1</i>	E7.5-9.5: ubiquitous.	n.a.
<i>whsc1</i>	Ubiquitous.	<i>Whsc1</i>	E10.5: ubiquitous.	n.a.

n.a., not available.
