

Supp. Fig. 1

yellow morph

red morph

N. furzeri color morph distribution.

Top row: the two color morphs of *N. furzeri*. Central picture. The proportion of the two color morphs is shown for GRZ, MZM-04/10, MZM 04/03 and MOZ 99/4. Data for GRZ are taken from Jubb (1971) and for MOZ 99/4 from Wood (2000). * indicates localities where also *N. orthonotus* was collected and # localities where *N. sp. aff. rachovii* was collected.
