^a AS: allocated to the lineage to the common ancestor of APEC 01 and S88;
 UTI89/AS: allocated to the SNPs at the divergence of UTI89 and AS; APEC/S88:
 allocated to the SNPs at the divergence of APEC 01 and S88.

^b For indels the base indicated is the base before the insertion or deletion.

^c ins, insertion; del, deletion; indel, insertion or deletion; nc, in non-coding genes; ns, non-synonymous; s, synonymous. number after "ins" or "del" or "indel" is number of bases if greater than 1
