

Table S5. Oligonucleotide primers used for qRT-PCR analysis

Locus	Description	Target Gene ID	Forward/Reverse	Product size/bp
Selected marker genes				
<i>PrCRN7</i>	Crinkler effector homolog	Pr_72359	TCTACTGGCAAGTGGTGCTG/ CCCAGTCGGGACCTAACATA	173
<i>PrCopia1</i>	Ty1 copia polyprotein	Pr_49580 Pr_39792 ¹	CAAAGGGGTACGAGGAAACA/ AGTAGGCGAAACCAAACACG	100
Selected endogenous control gene				
<i>EC1</i>	hypothetical protein	Pr_76099	ACCATCACCAAGGGTCTCAG/ TGTCGTACTGCGCAAATTC	142

¹ DNA similarity between genes for polyproteins Pr_49580 and Pr39792 is 98% and the annealing sites for primers are perfectly conserved.
