

Figure S4. Antagonism of Cqui\Orco. Results of a screen of 8 compounds for Orco antagonism. Responses of Cqui\Orco + Cqui\Or10 to 3 μ M OLC12 (\sim EC₂₅) (**A**) or of Cqui\Orco to 30 μ M OLC12 (\sim EC₁₀) (**B**) in the presence of each candidate antagonist are presented as a percentage of the average of the two preceding responses to OLC12 alone (mean \pm SEM, n = 3-5).
