Formal Statement of Ethical Practice

Concerning ethical practice of blood sampling; Manuscript Plos One (Pone-D-15-45349), "The cytolytic amphiphatic b(2,2) amino acid LTX-401 induces DAMP-release in melanoma cells and causes complete regression in B16 melanomas" by Eike, L.M. et al.

The protocol used for blood sampling and handling has been reviewed by the Regional (Northern Norway) Ethical Committee for Research Ethics at UiT, The Arctic University of Norway. The Protocol is in accordance with international and local human research ethical standards.

Sincerely,

Siv Rist Richardsen
