

S4 Fig

## A new mRNA variant

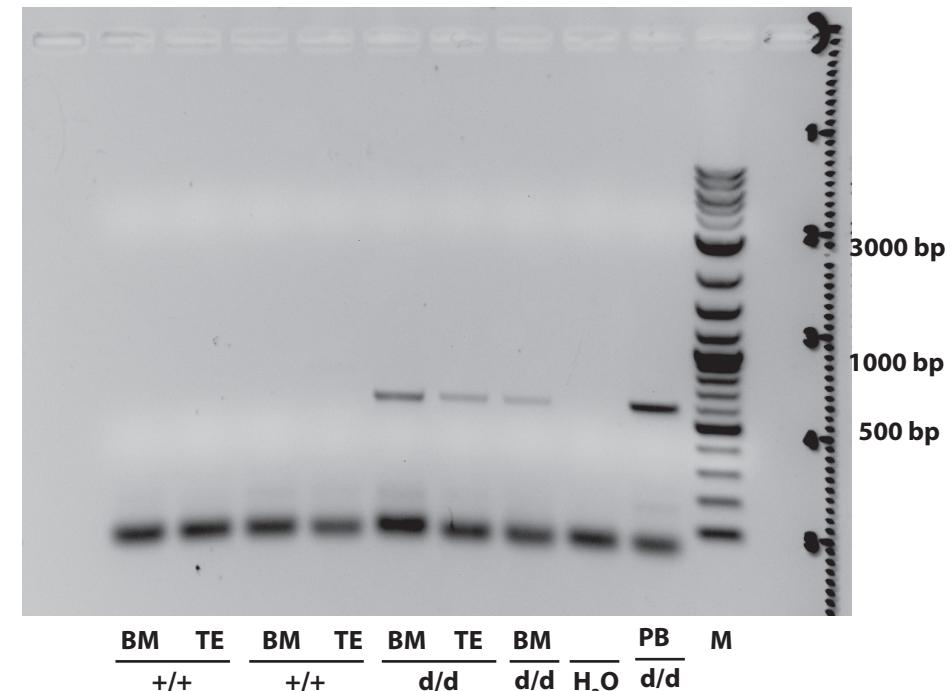

The figure shows an agarose gel electrophoresis (PAGE) result. On the left, there is a vertical scale bar with three horizontal tick marks. To the right of the scale bar, three distinct dark bands are visible, corresponding to the molecular weight markers. The top band is labeled "3000 bp", the middle band is labeled "1000 bp", and the bottom band is labeled "500 bp".

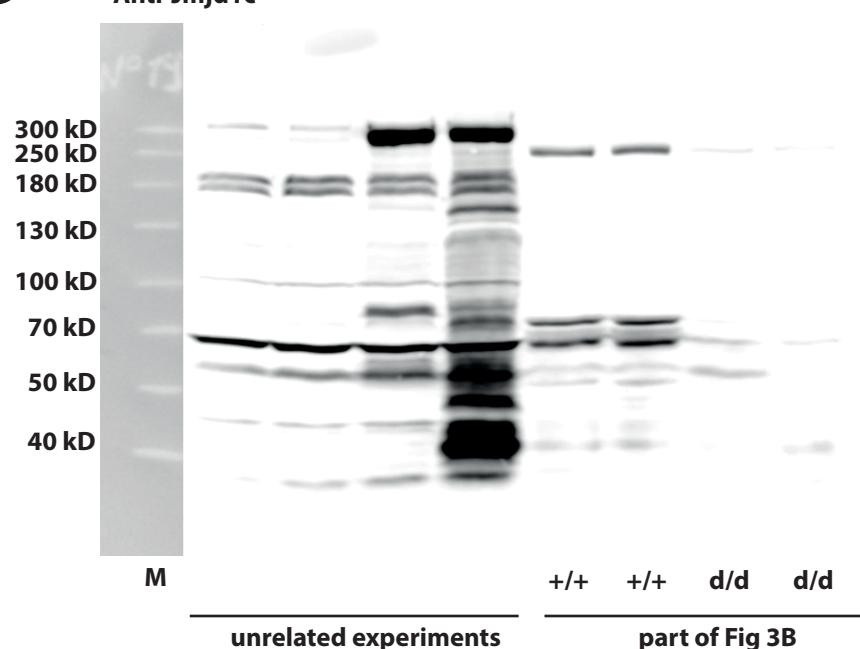

## B wt splicing

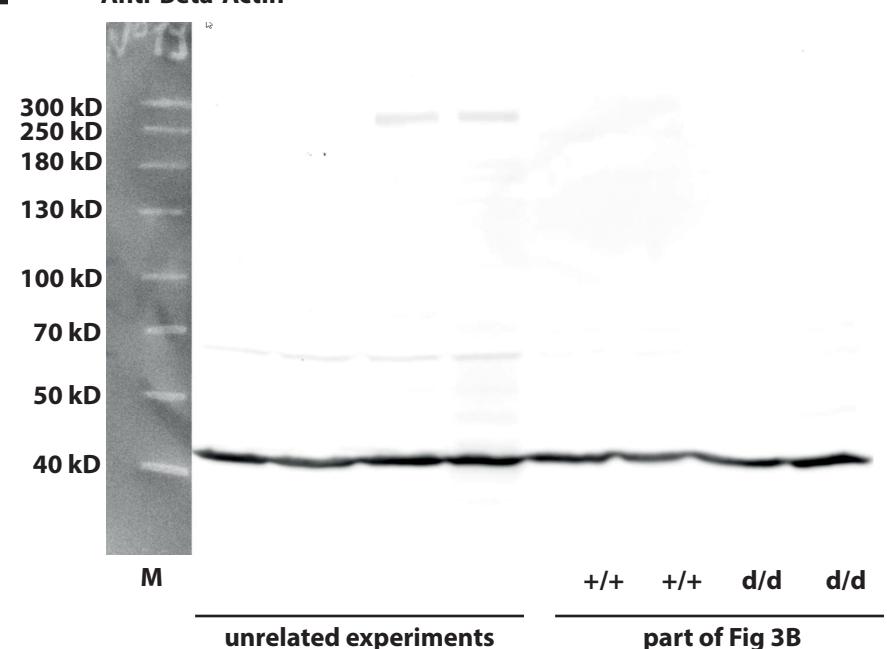

# C alternative splicing

## D Anti-Jmid1c

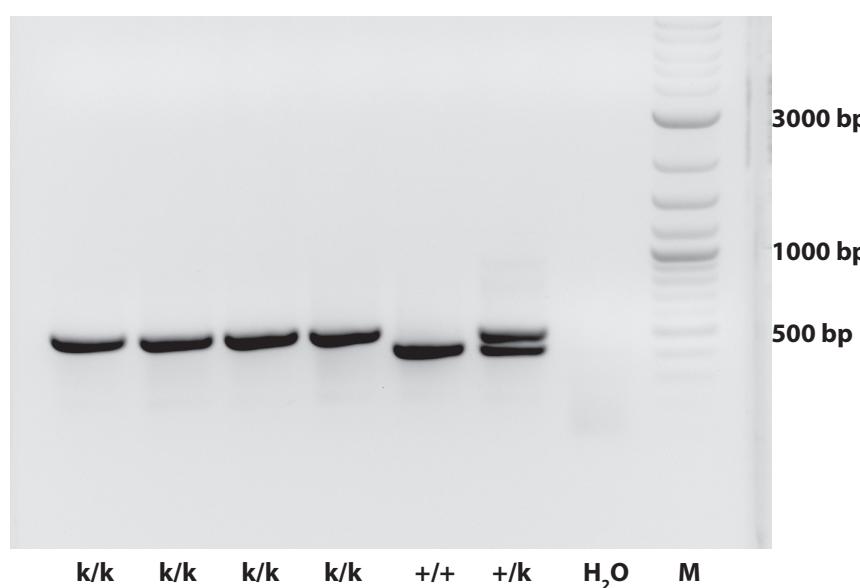

## **E** Anti-Beta-Actin

F

k-PCR

G

wt-PCR + d-PCR
